Part II – Disproportionately Impacted Area

Persons claiming to meet the social equity criteria as defined in [NCCR 5.055](#) must have resided for no less than the previous five (5) years in a disproportionately impacted area (DIA).

For an area to be considered a DIA, it must have:

- An Area Deprivation Index (ADI) score of seven (7) state-only decile or higher; and
- An incarceration rate in the 90th percentile or roughly 3.3%.

To find these scores, review the Social Equity Eligibility Methodology on the CCB website (ccb.nv.gov).

Use the table below to help you track the scores for each residence. If you lived at the same address for more than one year, you must provide dated documentation for each year you resided at that address. An example has been provided.

Please review the Evidence of Residency Index on the following page for acceptable forms of evidence of residency.
